SEPSIMED 4.0

"Emerging Threats, Evolving Therapies"

The Department of General Medicine, Kasturba Medical College Mangalore, proudly presents **SEPSIMED 4.0**, the fourth edition of its flagship conference dedicated to Infectious Diseases and Sepsis. Over the years, SEPSIMED has evolved into a distinguished academic forum that brings together experts, clinicians, researchers, and healthcare professionals to deliberate on the everchanging landscape of infectious diseases and the complex challenge of sepsis.

The theme for this year's conference, **"Emerging Threats, Evolving Therapies,"** reflects the dynamic nature of modern infectious disease practice. As the world continues to grapple with emerging pathogens, antimicrobial resistance, novel diagnostic technologies, and rapidly advancing therapeutic strategies, healthcare professionals must continually adapt to meet these evolving challenges. SEPSIMED 4.0 seeks to provide a platform where cuttingedge science meets clinical practice, equipping delegates with the latest evidence and practical insights to improve patient care.

The scientific program features distinguished national experts who will share their perspectives through keynote lectures, interactive case discussions, panel debates, and evidence-based sessions covering the breadth of infectious diseases and sepsis. Designed to encourage multidisciplinary collaboration and critical thinking, the conference aims to bridge the gap between research and bedside practice while fostering innovation and clinical excellence.

More than just a scientific meeting, SEPSIMED has become a tradition of academic excellence and collaborative learning. It reflects the enduring commitment to advancing medical knowledge, promoting rational antimicrobial stewardship, fostering meaningful research, and improving outcomes for patients with infectious diseases and sepsis.

As we welcome delegates to **SEPSIMED 4.0**, we invite you to engage in thoughtful discussions, exchange ideas, and forge lasting professional collaborations. May this conference inspire fresh perspectives, stimulate innovation, and reinforce our shared commitment to addressing the challenges of today while preparing for the infectious disease landscape of tomorrow.

We warmly welcome you to **SEPSIMED 4.0** and wish you an intellectually stimulating and rewarding academic experience.

- Organising Committee, SEPSIMED 4.0

Pre - Conference Workshop
